ABOUT

Mid-level user experience designer with a strong background in motion, prototyping, and some front-end development. I like to build beautiful products while curating thoughtful user interactions, and am a big fan of cinnamon raisen bagels.

SKILLS

Figma Frameworks Motion & Interaction

Lean UX Future Vision Sprints

HTML & CSS Product & Branding

EDUCATION

BACHELOR OF FINE ART

THE ART INSTITUTE 2010 - 2015

EXPERIENCE

MICROSOFT EDGE

UX DESIGNER 2019 - 2020

Designer on the Core UX team at Microsoft Edge Studio, where I developed end-to-end experiences and innovative browser interactions. I focused on user needs and wants, turning hypotheses into actionable features that help millions of people.

PAYSCALE

VISUAL DESIGNER 2017 - 2018

Cultivated modern design thinking in various segments of b2c & b2b products, tools and digital experiences. Became a champion of high fidelity and meaningful brand awareness throughout the organisation.

BEYONDSOFT

UX DESIGNER 2015 - 2017

I've worked with engineers, data scientists, and marketing teams to improve creative business solutions. I integrated ux design methodologies and lead digital services across the company ecosystem.

UPTOP

JR UX DESIGNER 2014 - 2015

As I dove deeper into the world of user experience design, I had the opportunity to work with talented designers, app developers, and project managers. This sharpened my perception of the collaborative UX design process and human-centered design principles.
